=XLOOKUP()

Function Arguments

XLOOKUP

Lookup_value	<input type="text"/>		= any
Lookup_array	<input type="text"/>		= reference
Return_array	<input type="text"/>		= reference
If_not_found	<input type="text"/>		= any
Match_mode	<input type="text"/>		= number

=

Searches a range or an array for a match and returns the corresponding item from a second range or array. By default, an exact match is used.

Lookup_array is the array or range to search.

Formula result =
